Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 16 March 2004 has been entered.

Claims 13-30 have now been presented for examination.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

Claims 29-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 29 is incomplete for lacking the comparative. It is suggested that at line 3, after "between" recite "freshness and".

Claim 30 is confusing because the comparative, "and histamine", comes after the "redox polymer" at line 7, which seems to imply that histamine is part of the electrode. It is suggested that "and histamine" be deleted and "histamine and" inserted at line 3, after "between".

Claim Rejections - 35 USC § 103

Claims 13-19, 21 and 30 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Heller et al. (WO 199323748) in view of Ohashi et al. (US 5,565,329) for the reasons of record. The advantage of AO from grass pea *Lathyrus sativas* over *Lathyrus cicera* of Cogoni et al. has not been established.

Allowable Subject Matter

Claims 23-28 allowed.

Claims 20 and 22 stand objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
